Instructions for Buy button code snippet for Support Narrow Escape

Downloaded at: 24 Feb 2026, 12:56:46

Hosted Button ID: [BPXNCR4SZPHDW](#)

Note you should always visit button details for most up to date information.

This guide provides the button code for you to copy/paste to your website.

Step-1: Choose the right button code based on your website technology and needs between Step-2 and Step-3.

- **Stacked Buttons (Recommended):** This option lets you present all of your product information and PayPal payment method upfront on your website. Your customers can choose to pay with other payment methods by clicking on the third button (Checkout button). **Go to Step-2.**
- **Single Button (embed a payment link) (go to Step-3):** This option lets you quickly paste a single button on your site. Once customers click the button, they will be redirected to a PayPal page with product information and PayPal payment method. **Go to Step-3.**

Step-2: Stacked Buttons (Recommended) - You can choose between HTML (go to Step-2a) or React (go to Step-2b) button code based on your website technology.

Step-2a: HTML - The code is divided into 2 parts based on where it needs to be pasted.

- **Part 1:**
 - **Where to paste:** Paste this code in your website's <head>. If you don't have access to <head> paste at the top of your page's <body> **only once per page.**
 - **What to paste:**

- **Part 2:**

- **Where to paste:** Paste this code in your page's <body>, ideally near your product. You can repeat this for each product you have on a page.
- **What to paste:**

Step-2b: React - The code is divided into 3 parts based on where it needs to be pasted.

- **Part 1:**

- **Where to paste:** Paste this code in your website's <head> (or at the top of your page's <body> above the Part 2 code) only once per page.
- **What to paste:**

- **Part 2:**

- **Where to paste:** Paste this code in your page's <body>.
- **What to paste:**

- **Part 3:**

- **Where to paste:** Paste this code in the page where you want the button to show up, near your product.
- **What to paste:**

Step-3: Single Button (embed a payment link)

- **Where to paste:** Paste this code in your page's <body>, ideally near your product. You can repeat this for each product you have on a page.
- **What to paste:**

Step-4: How to test and verify your buttons:

When you've added all the code, refresh your website to see the button. To test the button, make a purchase on your website. Then check your PayPal account for this transaction. Remember to refund the test transaction afterwards.
